

Enterprise Grade Security for Organizations of All Sizes

Managed Firewall

Reduce operational costs and enhance your overall security posture

Find Confidence in your Firewall: Decisive Can Help

Decisive is in the business of helping organizations with their firewall challenges. Migrating to new hardware, overhauling network design, aligning to best practices; yes we can help with that.

We'll gladly take on the ongoing management as well. Ensuring that vulnerabilities are patched quickly, and that the latest features and functionality from the vendor are put into practice.

Not all Firewall configurations are Created Equal

With the urgent requirement to protect businesses from cyber threats, the demand for cybersecurity expertise far exceeds the supply, leaving many organizations scrambling to find resources with the right skills to fulfill their needs. With skilled security resources becoming increasingly scarce, many cyber hardware and licensing purchases are providing inconsistent return on investment. Technologies which are critical elements of your cyber defence strategy are in many cases only as good as the configurations you put on them. Firewalls are one of the best examples of this. These technologies also require ongoing care and feeding to be sure that they are adapting to changes in your business and the threat landscape.

At Decisive Group we recognize this challenge, and have created our Managed Firewall Service to help organizations of all sizes overcome it. By leveraging our team of expert Cybersecurity Engineers and Analysts, you can be sure that your firewall is configured and managed ongoing against established best practices.

So you say your team is good, how good?

John Smith, Position

Enterprise IT. Customized for you.

Decisive Group designs, builds, and maintains enterprise IT infrastructure and hybrid cloud, as well as managing and protecting data.

We engage with customers through our hands-on approach, providing guidance and highly personalized service. Solutions-driven, we partner with the world’s leading providers of standards-based hardware, software, networking, security, and cloud products with one aim: to optimize processes and improve outcomes for medium and large enterprises.

In 2001, Decisive Technologies was founded as a professional services company in Canada’s National Capital Region, and we began offering data centre solutions in 2010. We expanded our offerings in 2013 with the addition of BriteSky Technologies, which originally focused on cloud storage, and in 2021, the companies amalgamated their products and services under the Decisive Group banner.
